Employ Yourself

Overall objective

Youth coming from 8 countries are empowered in promotion of social and work inclusion of young people through social economy.

Employ Yourself

Specific objective 1

To strengthen capacities of youth organizations in developing social economy perspectives by providing knowledge, skills and exchange of information about the existing best practices.

Employ Yourself

Young people from 8 countries will have the opportunity to learn different models of social entrepreneurship, receive technical information from experts and share best practices on transnational level. Transnational and exchange activities will provide participants opportunity to gain a broader awareness of different systems of social economy and share innovative models of social inclusion for those with fewer opportunities.

Employ Yourself

Specific objective 2

To raise awareness and increase knowledge of young people about opportunities offered by social economy in SEE.

Employ Yourself

The project aims at increasing the active role of young people in the society, providing them with skills required by the labor market and the social economy through a lifelong learning perspective.

Young people, particularly those with fewer opportunities, will become aware of alternative economic models based on social economy.
